

# The US Manufacturing Industry **Needs Your Help** as a Policymaker

Electrification Mandates **Heavily Burden** Manufacturing and Industrial Operations

Our current energy grid will not support all-electric HVAC systems for industrial facilities. Laws that constrain the use of natural gas products limit consumer choice and deprioritize the development of highly-efficient hybrid systems.

Promote **Infrastructure & Innovation**

Manufacturing has a high multiplier effect—every \$1 spent in manufacturing adds an economic impact of \$2.64. Support legislation that boosts federal investment in for the US manufacturing industry.

Understand the Importance of **“Healthy”** Facilities

Safety standards around indoor air quality and ambient temperatures go hand-in-hand with caring for the people within and ensuring that they are working in a comfortable, clean environment.

We create healthy working environments for hard-working people by manufacturing ultra-efficient commercial heating, ventilation and cooling equipment.

Promoting Energy **Sustainability & Safety.**

Promoting Energy **Efficiency.**

Promoting Energy **Freedom.**

Promoting **Manufacturing Job Growth.**

Constituent

**George**

Owns a furniture manufacturing business

Constituent

**Brady**

A line operator for George's manufacturing facility

Constituent

**Mark**

Makes a living distributing the furniture from George's shop

Constituent

**Sarah**

Small business owner that uses furniture from George's shop

**Manufacturing**  
**Contributes 2.65 Trillion** to US Economy

And accounts for 10.3% of our GDP.

Start

**Provides National Security & Supply Chain Resilience**

Removes vulnerability from global supply chain.

**Drives Innovation**

Our position as a global leader requires us to continually improve, evolve and drive for a better future.

**Bringing Glory and Dignity Back to US Manufacturing**

**ESG**

We can lead in **clean, efficient production**—making **Made in America** a global gold standard for sustainability.

**13M People** work in Manufacturing in the US for **244K Manufacturers**

This industry supports entire ecosystems of suppliers, logistics, and services.

**Sustains Communities**

Supports an entire ecosystems of **suppliers, logistics, and services**. Output from manufacturing gives other small business owners a starting point and retains growth within a community.
